

GERMAN HEATER.

The German Heater is no longer an experiment. It is a base heater, therefore a great floor warmer and is guaranteed to make 25 per cent more base heat than the same sized hard coal base burner and to keep fire better.

The German Heater is a sut consumer and fuel saver, will save 33 1/2 per cent of fuel over the straight draft stove.

The German Heater will burn soft coal, hard coal or wood. We sold 19 German Heaters last winter. We now have a full line of German Heaters in stock, inspect them.

The German Heater Furnace is a powerful Heater. If you are contemplating putting in a Furnace we would like to figure with you.

The All Right Washer.

Is something entirely new. Some of its Prominent Features as:
It is the quickest.
It is the simplest.
It runs the easiest.
It removes the dirt.
It gets the streaks out.
It is the most durable.
It weighs the least—25 pounds.
It will not rust or go to staves.
It washes the dirtiest places the fastest.
It washes by the latest scientific principle.
It will wash a cambric handkerchief alone.
It will wash 6 yards of carpet at one time.
It adds years of happiness to the laundress.
Hear what some of our prominent citizens say regarding its merits.
They know good washings when they see them.

We can cheerfully say that after trying the "All Right" washer on a large and dirty washing, we find it a complete success, it surely gets the worst soiled clothing clean without hand rubbing. We would rather have it than any machine we ever saw.

Jim Ramsay, Geo. Allen, Geo. Meyer, Jake Bucher, Charley Lukens, Nathaniel Smith, J. F. Bickle, Mesdames A. J. Brock, H. A. Siekman, Rob't. Patterson, G. H. Price, Al Herschner, Albert Seeman, Mrs. Jim Bucher and son Paul think it is a daisy, he washed a large washing in one hour and a half that usually took half a day. He thinks it nothing more than play.

—Have you tried Geo. F. Seeman's new flour? It is fine. If you haven't tried it, and want fine bread, you should do so. All of this flour is made of old wheat.
—S. E. Proud, local agent for the Tabard Inn Library, spent a few days in our city the past week, and secured a number of names who will become members with the view of establishing a library in this city. He will return next week and renew his work. The Tabard Inn Library circulates only the new and best publications, and the book lovers of Oregon should become members.
—Among the photographs to be shown in the Missouri World's Fair Commission exhibit at St. Louis is one of a single Missouri farm upon which in good seasons a million watermelons are grown. The farm is the property of Ben F. Marshall, is situated in Scott county, Missouri, and 10,000 acres are planted in watermelons. In seasonable years Mr. Marshall's "watermelon patch" will yield nearly or quite a thousand melons to the acre or a million melons. It is the largest watermelon farm in the world.

—The most terrific electric storm ever known in this region passed over Maitland Tuesday night. Shortly before 12 o'clock the clouds came up from the southeast and overspread the sky. The clouds were very low seeming to almost touch the roofs of the houses. The rain fell in torrents, and a few minutes after 12, the electrical display was so brilliant and rapid as to be terrifying. Snap after snap and flash after flash came in swift succession. No great damage was done in Maitland. The cupola of the High school building was struck, and some of the shingles torn off but no further damage done. It is a matter of wonder that the building was not set on fire. A tree in N. H. Rober's yard was struck, and damaged to some extent. —Maitland Herald, Aug. 27, 1903.
—The Department of Publication, of the Missouri World's Fair Commission, has begun the collection of county statistics upon which Walter Williams will base his "The State of Missouri," the 600-page volume through which means immigration will be induced during the World's Fair. Mr. Williams, and the Assistant Superintendent, R. A. Hockensmith, will visit various Missouri counties in endeavor to present co-cise and accurately each individual county's adaptabilities, advantages and commercial wants in the matter of manufacturing, agriculture, horticulture and other industries. The state is investing \$50,000 to the end of preparing the volume, which will be distributed free with judiciousness, at the Missouri building, during the World's Fair. It is thought by many Missourians that the plan adopted for acquainting outsiders with the true conditions of Missouri, will preface the greatest period of development the state has ever known.

He solicits your business in his line.
—J. B. Hinde came near meeting with a serious accident last Sunday while returning from the Nodaway river. In crossing the bridge, near James Callow's residence, his horse stepped on a rotten plank in the floor of the bridge and went through, the result being that a nail entered the foot, making the horse very lame. It required quite an effort to pull the nail from the foot.
—The county commissioner, assisted by the state superintendent, is arranging an excellent program for the teachers association to be held soon. One representative of the State University, one of the State Normal school and one of the State Department of Education will attend, each a different day, and help to make the meetings profitable. They will be prepared to conduct exercises and instruct the teachers in plans of organizing and managing schools, in arranging courses of study and daily programs and in explaining points of school law and means of improving the schools.
—The old proverbial adage that a bird in the hand is worth a flock on a hat is brought to realization again. After January 1, 1904, women cannot wear birds on their hats through an agreement between the Millinery Jobbers' Association of the West and the Audubon society. No longer will be seen birds perched on a creation that rivals the tropics in color and richness. Women can only be appeased by the little songsters may substitute plumes and feathers. By the agreement song birds, gulls, terns, humming birds and grebes are prohibited. All edible birds and fowls may be used. "Chicken on de brain" still goes.

The Tyfold Collar

The picture shows how the collar is cut out on each side to allow for adjusting a neck tie without springing the collar open. The collar comes close together in front, it keeps the tie in place and you don't see the cut-out part. Besides the tie is retained just over the button, which is also kept out of sight. Your summer comfort will be increased if you wear one, and you'll thank us for the style. Dealers sell them.
